

DAIKIN Awarded as the Best Manufacturer of the Year – Chiller Products

Reflecting our Global image as the leader in the HVAC industry, DAIKIN McQuay Middle East has been awarded **Best Manufacturer of the Year – Chillers** at the 2014 Climate Control Awards Ceremony, held on the 19th November in Dubai - UAE.

This award is a regional recognition of Daikin Applied's leadership in providing high performance system solutions that help preserve and protect our natural environment; premium quality standard, high efficiency, low noise and environmental friendliness across our complete product range.

DAIKIN, through strengthening our applied range, is proud to be considered the **TOTAL SOLUTION PROVIDER** for all your HVAC needs from the smallest 1.5 Ton DX to the biggest 3200 Ton District Cooling chillers.

DAIKIN, with your support, will continue to lead the international standards and be a reference in the HVAC industry in the region and worldwide.
